

Have You Experienced a Genetic Diagnosis During Pregnancy?

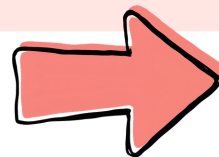

Researchers at the University of South Carolina would like to learn about your experience

You may be eligible if you:

- ✓ Are a parent who received a genetic diagnosis for your baby during pregnancy
- ✓ Received the diagnosis within the past 2 years
- ✓ Are willing to participate in a virtual interview about your experience

We hope to learn more about family experiences, coping strategies, support systems, and the factors that helped bring parents feelings of joy and meaning throughout their journey.
